

HOW TO EARN A KARATBARS BUSINESS MARKETING PACKAGE WITH NO OUT OF POCKET COST USING 3D METALLIC CARD COMMISSIONS

The 3-D metallic cards may be purchased by customers and affiliates alike. What you cannot do is purchase the cards yourself and then sell them directly to a customer. Instead you send a potential customer or potential affiliate your referral link and have them complete their purchase there. If they are not already registered, they will do so then, including the KYCs, and you will be the sponsor. The referral link streamlines the process and ensures that the affiliate or customer will be placed in your downline, where you earn the commissions. As with all of your own purchases, you do not earn commission on the purchase of 3-D cards for yourself.

Please inform your downline that during the first six weeks of becoming a new registered affiliate with Karatbars, new affiliates have the opportunity to earn double commissions (30€) from the direct sale of all products within our 3D product line. (The 3D cards can be sold to family and friends in order to build direct commissions without even having a package. All 3D cards can be found in the product purchase section of your back office)

Commissions earned during the first 6 weeks of registration may be exchanged for a Dual Team business package. Shipping and country dependent fees will remain the responsibility of the new affiliate. Once the six week time frame has expired following the new registration, commissions on the sale of our new 3D product line will revert back to 15€ in direct commission per 3D card sold.

The sale of:

- 3 cards equals to a Bronze Package status
- 9 cards equals to a Silver Package status
- 20 cards equals to a Gold Package status
- 50 cards equals to a VIP Package status

If an affiliate does not already have a package, they have the option of applying the commission earned to the purchase of the Dual Team business package. PLEASE NOTE: Once you have selected the option to have commissions paid out, you cannot undo this setting. Instead, your affiliate should select the option for a package in the back office, Commissions, Dual Income and Package.
